

GitHub CoPilot

- [Setup](#)

Setup

Setting Up w/ Visual Studio

[Install and manage GitHub Copilot in Visual Studio - Visual Studio \(Windows\) | Microsoft Learn](#)

Setting Up w/ Visual Studio Code

[Set up GitHub Copilot \(visualstudio.com\)](#)

You will also probably want to install the GitHub Copilot Chat extension. [Setup Docs here](#)

Assigning Licenses

Use the following screenshot for guidance on where to assign licenses, just also make sure you have the RevverDocs organization selected or you may not see the view shown in this screenshot.

The screenshot shows the GitHub Copilot Business settings page for the RevverDocs organization. The page is divided into several sections:

- General:** Shows the organization name "RevverDocs" and a "Go to your organization profile" button.
- Access:** A sidebar menu with options like "Billing and plans", "Repository roles", "Member privileges", "Import/Export", "Moderation", "Repository", "Codespaces", "Planning", "Copilot", "Policies", "Content exclusion", "Actions", "Webhooks", "Discussions", and "Packages". The "Copilot" and "Access" options are highlighted with red boxes.
- GitHub Copilot Business:** The main content area, which includes:
 - Copilot seats:** Displays "2 seats" and a link to "Learn more about licenses".
 - Estimated monthly cost:** Displays "\$38.00" and a link to "Review billing details".
 - Copilot Business is active in your organization:** A section with a sub-header and a description: "Control which users or teams will have access to GitHub Copilot inside your organization. Invited users with approved access will receive an email with setup instructions. [View organization settings documentation.](#)" Below this is a dropdown menu set to "Enabled for: Selected members".
 - Access management:** A section with a search bar "Filter by name or handle" and a list of members with access to Copilot. The list shows "2 members with access to Copilot" and includes entries for "@quinndgodfrey" and "@j0shblotter", both with "Last usage 17 hours ago" and a three-dot menu.
 - Buttons:** "Get report" and "+ Add seats" buttons are visible at the bottom right of the access management section.
