

Adding a Printer to your computer

Shared Printers Info:

Color Printer - HP LaserJet Pro 400 color Printer M451dw - IP Address: 10.10.0.19

This printer can print in black and white and color. This is the normal sized printer in the north hallway.

Office Printers Info:

Color Printer - HP LaserJet Pro CP1525nw Color Printer - IP Address: 10.10.0.17

This printer can print in black and white and color. It is located in Dave Smith's office.

Windows Setup Instructions

Printers should be added to your computer automatically. If they are not, or if for any reason you need to add them manually, please follow the instructions found in the link below.

Mac Setup Instructions

Printers will NOT be setup on your computer automatically. You will need to use the IP address of the printer to add it to your computer. Please use the link below for instructions for how to do that.
