How to join the Azure AD domain and delete the local user

Join Azure Active Directory

- In the Window search bar type in "school" then click on the option to "Access work or school"
  - image_ref_1 2022-12-05_09-41-27.png
- Press the "Connect" link then click on the "Join this device to Azure Active Directory" link
  - image_ref_2 2022-12-05_09-42-11.png
- Enter your Microsoft username and password
  - image_ref_3 2022-12-05_09-43-17.png
- A popup will show up. Verify your username is correct then click "Join"
  - image_ref_4 2022-12-05_09-45-06.png
- Click "Done" then restart your computer.

Delete the local user

- When you get to the login screen select "Other user"
  - image_ref_5 2022-12-05_09-47-26.png
- In the Windows search bar type in "users" then click on "Add, edit, or remove other users"
  - image_ref_6 2022-12-05_09-58-55.png
- Click on the username you wish to remove then click on the "Remove" button
  - image_ref_7 2022-12-05_09-59-42.png
- Click on "Delete account and data"
  - image_ref_8 2022-12-05_10-02-16.png
