

Shared Dev Mac for Remote Access

There is a Mac Mini setup in the IT area that can be accessed remotely.

If you are not in the office make sure you are connected to VPN before trying to access the Mac mini.

The login credentials for this computer are in LastPass. You can search for "Mac Mini for Remote Dev Access" to find it.

If that has not already been shared with you please submit a ticket requesting access at ithelp.efilecabinet.com
