

# Release Testing - Atlantis

## All Releases are Atlantis Releases

All new users are automatically opted in as Atlantis / New Experience users. As such, all release testing must use tests tuned for Atlantis.

For each endpoint, do the following:

1. Set up based on the instructions for each endpoint below
2. Run AtlantisSmokeTests.playlist
  1. This is a suite of 14 tests, each of which should run to completion

## US Prod Setup

1. testSettings.json
